

EcoStruxure™ AI Code Audit Report

This automated audit was conducted using Schneider Electric's AI-powered code review system, analyzing 447 organizational coding standards including IEC 61131-3 compliance, energy efficiency guidelines, and security protocols.

Report Generated:	2026-02-24 18:17:55
File Analyzed:	test_buggy.java
Lines of Code:	47
Quality Score:	0/100 (F)
Issues Found:	22
Rules Checked:	447
Analysis Engine:	OPENAI (gpt-4o)

Compliance Status:	NON-COMPLIANT - ACTION REQUIRED
Quality Grade:	F
Overall Score:	0/100

Issue Breakdown

Severity	Count	Impact
Critical	2	High Risk
Errors	14	Medium Risk
Warnings	6	Low Risk

Detailed Findings

#	Rule	Severity	Message	Line
1	SEC-001	Critical	Hardcoded password found	4
2	SEC-002	Critical	Hardcoded API key found	5

3	NAM-001	Error	Class name 'motorController' should be in PascalCase	3
4	DOC-001	Error	Missing Javadoc for class 'motorController'	3
5	DOC-002	Error	Missing Javadoc for constructor 'motorController'	9
6	DOC-003	Error	Missing Javadoc for method 'start'	14
7	DOC-004	Error	Missing Javadoc for method 'stop'	19
8	DOC-005	Error	Missing Javadoc for method 'calculateEnergy'	22
9	DOC-006	Error	Missing Javadoc for method 'getData'	27
10	DOC-007	Error	Missing Javadoc for method 'main'	34
11	GEN-001	Error	Use generics with 'ArrayList'	28
12	NAM-002	Error	Method name 'getData' should be in camelCase	27
13	NAM-003	Error	Method name 'calculateEnergy' should be in camelCase	22
14	NAM-004	Error	Method name 'start' should be in camelCase	14
15	NAM-005	Error	Method name 'stop' should be in camelCase	19
16	NAM-006	Error	Method name 'main' should be in camelCase	34
17	SPC-001	Warning	No space around operator '='	10
18	SPC-002	Warning	No space around operator '='	11
19	SPC-003	Warning	No space around operator '='	12
20	SPC-004	Warning	No space after comma in parameter list	9
21	SPC-005	Warning	No space after comma in parameter list	23
22	SPC-006	Warning	No space after comma in parameter list	35

Recommendations & Next Steps

- URGENT: Fix all critical security and compliance issues
- Request technical review with senior developer
- Attend Schneider coding standards training
- Re-audit after major corrections
